BOSTenergies AGM 2026

Company Overview

BOSTenergies Limited Company (BOSTenergies) is Ghana's national petroleum products logistics and trading company, responsible for the strategic storage, transportation, and distribution of petroleum products across the country. The Company plays a critical role in Ghana's energy supply chain by providing the infrastructure and logistics backbone that supports the efficient movement of petroleum products from import and supply points to demand centres across the country.

BOSTenergies operates strategically located petroleum storage facilities, pipelines, and transportation infrastructure that facilitate the movement of petroleum products across the country. Through its network of depots and transmission infrastructure, the Company supports national fuel security, improves the efficiency of petroleum product distribution, and contributes to the implementation of Ghana's petroleum product zonalisation policy.

STRATEGIC DIRECTION

BOSTenergies is positioning itself beyond its traditional role in petroleum logistics to become a diversified energy logistics and trading enterprise. This includes expanding its infrastructure footprint, strengthening its commercial capabilities, and exploring opportunities across emerging areas of the energy value chain.

OUR VISION

To become West Africa's leading net-zero integrated energy logistics and trading company.

OUR MISSION

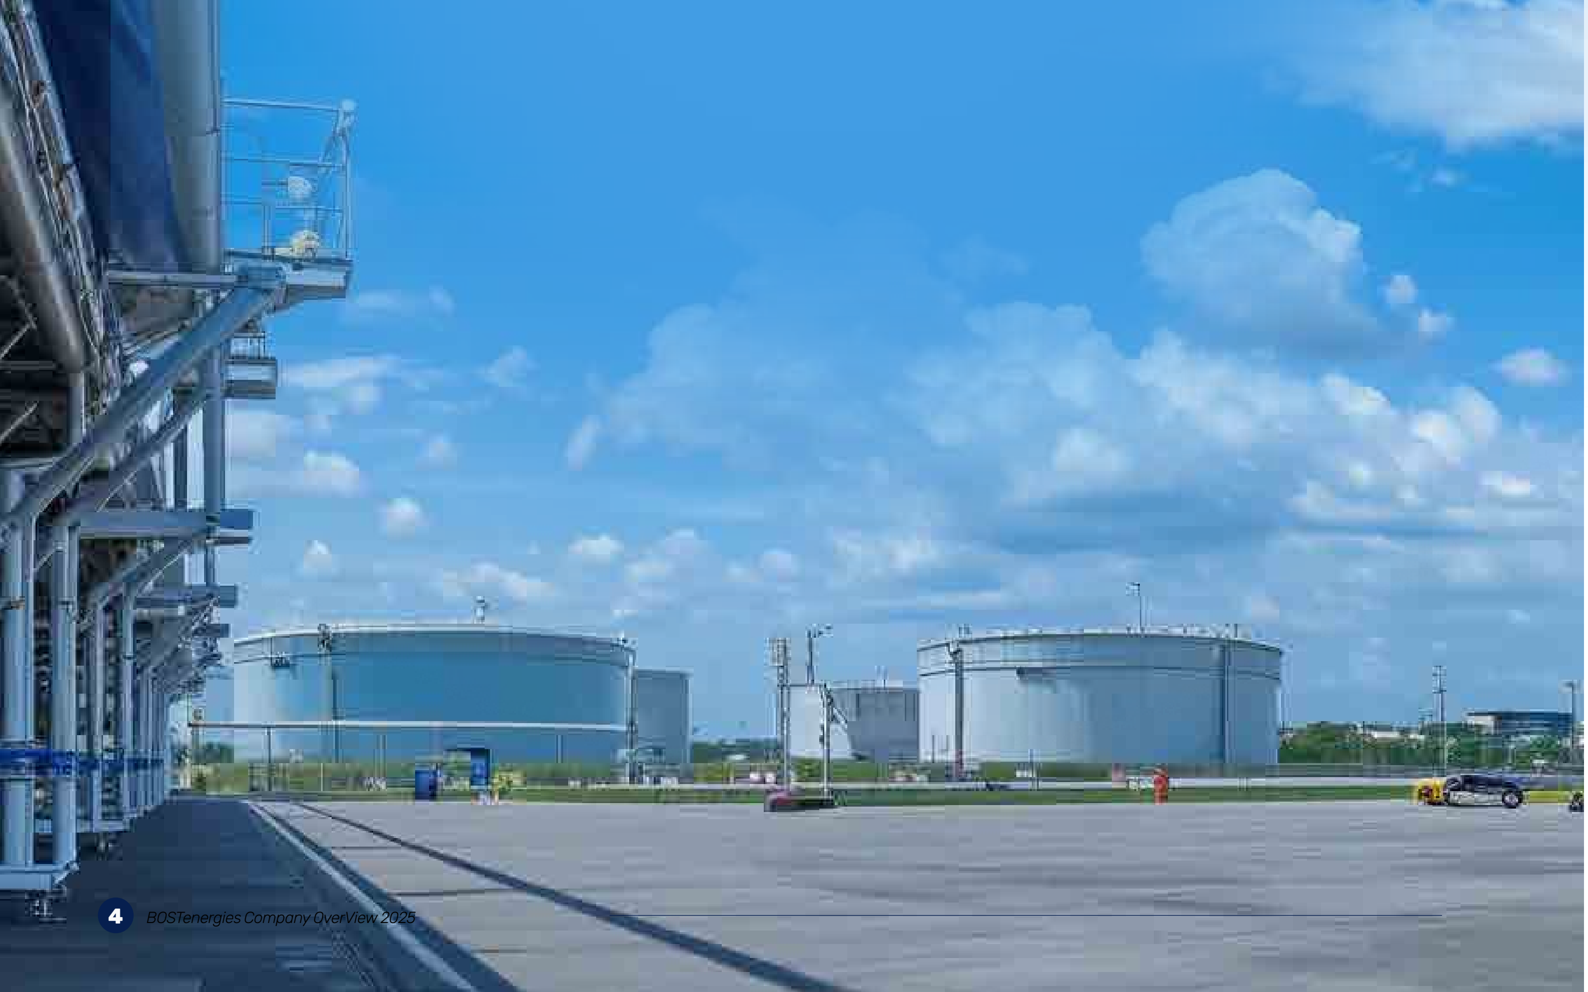
To deliver energy responsibly, efficiently and reliably through innovative logistics, trading and infrastructure solutions.

CORE VALUES

Passion • Performance • Integrity

Why BOSTenergies Matters

As Ghana's energy landscape evolves, BOSTenergies serves as an important link between petroleum supply and consumption. Its infrastructure enables products to be moved efficiently to different parts of the country, helping to reduce supply bottlenecks, improve market access, and strengthen national energy resilience. The Company's continued investment in its infrastructure, technology, human resource, and new business opportunities is central to its ambition of becoming a leading integrated energy logistics and trading company in West Africa.



BOSTenergies Annual General Meeting 2026

Company Records Strong Financial Growth, Declares First-Ever Dividend to Shareholder

BOSTenergies Limited Company (BOSTenergies) has recorded significant financial growth, strengthened its balance sheet, and delivered improved profitability, marking a strong performance for the period under review. For the first time in the Company's history, BOSTenergies will pay a dividend to its shareholder, reflecting the Company's improved financial position and profitability.

Revenue Surges by 195% to GHS3.81 Billion

BOSTenergies recorded total revenue of GHS3.81 billion, representing a remarkable 195% year-on-year increase. The Company nearly tripled its revenue compared to the previous year, underscoring the significant expansion in the Company's commercial activities and revenue-generating capacity.

Profit After Tax Rises by 72% to GHS683.96 Million

BOSTenergies profit after taxation in the year 2025 was GHS683.96 million, representing a 72% year-on-year increase. The strong growth in profitability demonstrates the company's ability to translate increased commercial activity into stronger bottom-line results.

Total Assets Increase by 50% to GHS3.99 Billion

BOSTenergies' total assets increased by 50% to GHS3.99 billion, reflecting significant growth in the Company's asset base and strengthening of its overall financial position.

Shareholder Equity More Than Doubles to GHS1.47 Billion

The Company's shareholder equity more than doubled to GHS1.47 billion, representing a substantial strengthening of its capital position. The growth in shareholder equity, together with the Company's improved profitability, provides a stronger foundation for sustainable growth and continued investment in the Company's operations and strategic priorities.

Administrative Expenses Decline by 28%

Despite the significant expansion in revenue and profitability, BOSTenergies maintained a strong focus on cost discipline. Administrative expenses declined by approximately 28%, demonstrating the Company's commitment to operational efficiency, prudent expenditure and responsible financial management.
